**ALABAMA
NURSERY
COMPANY**

(INCORPORATED.)

CHASE, Madison Co., ALA.

PRODUCERS OF

"CHASE'S ALABAMA CROWN."

OUR SHIPPING POINT,

Money Order, Express and Telegraph Office is

HUNTSVILLE, ALABAMA.

WARE BROS., PRINTERS, HUNTSVILLE.

TO OUR CUSTOMERS:—

The season just closed has, thanks to you, been the banner year for us. We thank you one and all for the patronage you have given us. We are proud of the fact that many of your names are to be found on our ledgers each year since you placed your first order for "CHASE'S ALABAMA GROWN" and we shall strive to keep your names there. Each year has brought improved facilities for handling your orders, our plant is now one of the best equipped in this country. Prospects at this time are bright, everything growing beautifully and full stands throughout. We solicit your patronage.

Very truly yours,

ALABAMA NURSERY COMPANY.

Chase, Ala., June 10th, 1898.

REFERENCES.

SEASON 1898-9

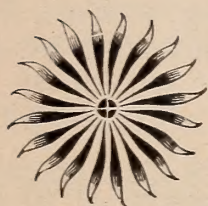

JUNE 10, 1898

WHOLESALE TRADE LIST

OF THE

Alabama...

Nursery Company

(INCORPORATED.)

CHASE, MADISON CO., ALA.

This list is to the TRADE ONLY, (nurserymen and large dealers.)

We do not intend it for planters or merchants in other lines of trade.

OUR SHIPPING POINT,

Money Order, Express and Telegraph Office is

HUNTSVILLE, ALABAMA.

FOR YOUR INFORMATION.

CHASE, ALABAMA, is a suburb of Huntsville, situated three miles north-west of that beautiful, progressive city. The town was founded and built by the Alabama Nursery Co. During the packing season three express trips are made daily to Huntsville, and "hurry" express orders are handled quickly. Mail facilities are excellent.

EACH ORDER is handled separately. After lifting, the trees are sent immediately to our large cellar where they are **GRADED AND BUNCHED UNDER COVER**, exposure is reduced to a minimum, and customers may depend upon receiving stock fresh, sound and in perfect condition.

TELEGRAPHIC ORDERS should be sent to **HUNTSVILLE, ALA.** They are transmitted to our office by telephone and are usually filled same day they are received. Use Nurseryman's Telegraphic Code.

LONG DISTANCE TELEPHONE in our office the utility of which was demonstrated last fall during the rush when customers at a distance of three hundred miles availed themselves of its use. A customer in West Tennessee, phoned us at 10:30 a. m. for stock that he was obliged to have the next morning and the shipment left on the 11:40 express—quick work!

STORAGE FACILITIES. We have here in Huntsville a cold storage warehouse with a capacity of 20 carloads and can hold stock here for bulk shipment in perfect condition until March 15th., to 20th. We take particular pains in storing our trees, using moss all through the roots as we would in packing in cases, and customers are sure of receiving trees with their vitality unimpaired.

THE ART OF PACKING has, through years of experience, by a member of our firm, been mastered. Our packing house is under his personal supervision during the shipping season. Your goods will be properly packed in moss and will open to your satisfaction.

IT IS NOT our ambition to be a low-priced house, but we strive to grow stock that is **FIRST-CLASS, TO GRADE ACCURATELY**, to have the handling and packing as good **AS THE BEST**. We expect to sell on the market. We believe this is the way to hold your trade.

BUDS—We can supply buds in large quantities of nearly all varieties herein listed. We understand the art of packing and guarantee them to open in good condition. We use the utmost care to keep our blocks pure and customers may depend upon getting varieties ordered. Write for prices.

ORDERS for trees should be given in multiples of ten of each variety except 1 to 2 and 2 to 3 feet, peach trees which are tied in bundles of 25.

Guarantee of Genuineness.

We exercise the greatest of care to keep our varieties PURE and TRUE to name, and we hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of the goods.

Packing and Packing Cases.

Our packing season usually begins October 1st, and continues through the winter till March 1st. The work of packing is personally superintended by an experienced member of the Company. We pack in moss. No pains will be spared to make our packing as good as the best.

The cost of cases seven and one-half to nine feet long, thirty inches, is \$2.50; twenty-four inches, \$2; eighteen inches, \$1.50. Bales, 25 cents to 75 cents. No charge for drayage.

Bales cost a higher rate of freight; so, as far as possible, we ship in cases.

Shipping.

Please state how goods must be sent; whether by freight or express; also route. If no directions are given, we will ship as we think best serves customers' interest without assuming responsibility. The risk and cost of shipment belongs to purchaser.

Grades.

We grade carefully; in some cases by caliper, others by height. When by both, the caliper must govern. The lower number is included, and the higher number excluded. For instance, in a grade from four to five feet four feet trees are included, but five feet go into the next grade. If plump five feet trees are wanted, the order must be for five to six feet. When possible we prefer to send samples to prospective customers.

Caution.

We accept all orders upon the condition that they shall be void should any injury befall the stock from frost, hail, storm, fire, or other cause over which we have no control.

Claims.

All claims must be made immediately on receipt of goods or they will not be allowed.

NOTICE.

This list is to show you what we have for the coming season, to remind you that Chase, at Chase, Alabama, will have a more complete stock this season than ever before and to emphasize the quality to be found in "CHASE'S ALABAMA GROWN." This is not a price list as we think it too early to determine an intelligent scale of prices. If you want prices now write us and we will figure. LATER WE WILL ISSUE A PRICED LIST.

SAN JOSE SCALE.

Our Nurseries are absolutely free from this pest and as far as known it does not exist in this locality. For full report on this section see Bulletin No. 12 New Series U. S. Dept. of Agriculture, Division of Entomology, issued by L. O. Howard, U. S. Entomologist at Washington.

Huntsville is mentioned particularly in this bulletin and it will allay all fears of San Jose Scale being found on "Chase's Alabama Grown". We have a first-class fumigating establishment and when requested by our customers to do so will run their stock through it. Treatment—Hydrocyanic acid gas. Our Nurseries will be examined twice during the season and necessary certificates attached to shipments.

APRICOT.

One Year, On Peach.

On Small Stock

For Lining Out.

Our stock of Apricot is heavier than usual and the trees promise well at this time.

Our block of two year Pear is a beauty—the assortment larger than usual.

Note our list of Nut Trees, will have our usual stock this Season—Pecan, English Walnut, etc.

Wier's Cut Leaved Maple is a beautiful tree—we offer the trade a WELL GROWN stock; trees are smooth, symmetrically proportioned. None too old or overgrown.

ROSES.

/ No comment necessary—ask some of
 \ your friends in the trade about them.

ALABAMA GROWN.

The following varieties are field grown, 2 years old, on their Own Roots. We have received many compliments on our Roses the past Season and can promise our customers plants this year which will be fully up to our standard.

Anna de Diesbach	John Hopper
Baltimore Belle	La France
Baron Prevost	Madam Plantier
Blanche Moreau	Magna Charta
Blanche Robert	Mrs. Geo. Paul
Coq. des Alpes	Mrs. Jno. Laing
Coq. des Blanches	Paul Neyron

Henri Martin	Yellow Rambler
Infant de Mount Carmel	White La France

ROSES, One Year, Budded On Manetti.

These plants are budded low and much care taken to prevent their "Suckering"—We believe them to be Superior to Foreign Grown Stock and guarantee them to give satisfaction.

Baroness Rotschild	Mabel Morrison
Coq. des Alpes	Margaret Dickson
Coq. des Blanches	Merville de Lyon
Earl of Dufferin	Marechal Neil
Gen. Jacqueminot	Paul Neyron
Gloirie Lyonnaise	Prince Camille
Her Majesty	Rev. J. B. M. Camm
La France	Ulrich Brunner

Vick's Caprice

Remember that we have one of the largest stocks, and we think the most complete assortment of Peach to be found in America. They will be beautifully rooted, well proportioned trees.

Bud From Healthy Stock !

Under date of June 3rd, 1898, a customer in one of the Middle States writes: "We have about ten acres of Peach seedling to bud and would like to get all of the buds from you, can you arrange to send us 15,000 buds each day as we may direct?"

"Our peach trees are somewhat diseased, the leaves curl up and blister, what our peach growers call 'Honey Dew', the Peach buds we had from you last year are doing far better than those that we used from our own trees, we can hardly understand why there is such a difference."

PEACH PITS!

We have on hand ready for immediate shipment a few hundred bushels of the '97 crop of "little fellows." It has been our experience that seed a year old give better stands than those produced and planted the same season, and we make it a point each season to carry over enough for our own use. This year we have a surplus and will book orders for same while they last. It is too early yet to make any estimate on this season's crop but indications point to a light one.

We also have on hand a few of these promiscuous—not much account and we shall be very glad to supply them at **35 cents per bushel F. O. B. Huntsville.**

OUR LOCATION.

Some of our extreme Northern and far Western friends are still laboring under the impression that we are "too far south, in too hot a country to produce a hardy tree, etc." We realize that "Alabama" sounds far South, hot, yellow feverish and perhaps a little **"snakey"** to these friends, but such is not the case with this section at least. We are but 27 miles south of the Tennessee Line; 320 miles north of the Gulf; 18 hours ride from Chicago or St. Louis. The Mercury goes down to 4 and 6 below Zero sometimes and a "linen duster with a fur collar" will not do here in winter. "Chase's Alabama Grown" are fruiting satisfactorily in Massachusetts, Michigan, Canada, Dakota, Nebraska, Colorado, and Oregon as well as in Arizona and all the Southern and Middle states. We grow as hardy a tree here as can be grown anywhere and as we pay freight to St. Louis, Cincinnati, Rochester, and Philadelphia, we place our stock within easy reach of you. We solicit a trial order from each of you who have hesitated because of our being **"way down in Alabama"**.

**“Praise not thy work, But let thy work praise thee ;
If what thou dost is good, Its good will all men see”.**

—Saadi.

MISSOURI, April 8th, 1898.—“Inclosed find draft to balance account to date. We are very much pleased with the Peach trees”.

KANSAS, March 19th, 1898.—“The boxes received all right, everything in No. 1 condition. Am well pleased”.

MISSOURI, March 24th, 1898.—“Nursery stock arrived yesterday in fine condition and satisfactory”.

OKLAHOMA, TER., December 13th, 1897.—“The trees arrived all O. K. and I must say I am more than pleased with them”.

VIRGINIA, January 5th, 1898.—“Trees arrived all right in good order. I like your packing. Trees had fine roots and I am well pleased”.

LOUISIANA, January 5th, 1898.—“I opened the box of trees a few days ago and found them to be very fine trees and packed in the best manner. Your trees and your work were first-class in every respect”.

GEORGIA, January 29th, 1898.—“I never saw prettier trees than those from you. They reached me in excellent condition”.

NEBRASKA, March 14th, 1898.—“The two boxes ‘Jacob’ are O. K. in every particular”.

INDIANA, April 8th, 1898.—“Stock came through in fine condition. Thanks for your promptness in shipping”.

TEXAS, January 24th, 1898.—“Trees arrived in fine order, am well pleased”.

INDIANA, April 16th, 1898.—“Box ‘Indian’ arrived in perfect condition. Stock was splendid throughout. It gives me pleasure to do business with you people”.

MISSISSIPPI, December 2nd, 1897.—“Trees to hand in fine condition. They give perfect satisfaction—‘Little Dandies’.” (These were light grade peach).

OKLAHOMA, TER., November 15th, 1897.—“Trees came through O. K. I am well pleased with them, all in first-class condition. And the grade is all I could ask for. I will most certainly continue to do business with you”.

KANSAS, March 18th, 1898.—“The box containing 100 Assorted Roses came O. K. Find the roses well rooted and satisfactory”.

MISSOURI, March 9th, 1898.—“Trees were received this morning all right, was well pleased with them”.

NEW JERSEY, April 1st, 1898.—“The box has been received all right, the stock we think in excellent condition and certainly satisfactory”.

VIRGINIA, January 27th, 1898.—“The trees came to hand in good order and were unpacked to-day. They are as fine a lot of trees, I think, as I ever saw”.

MISSISSIPPI, November 30th, 1897.—“Trees arrived in good shape, stock better than I expected”.

MISSOURI, March 26th, 1898.—“Box ‘Kettle’ received. Very fine Plum trees, send me box ‘Intuition’ and ‘Image’ at once”.

KANSAS, March 31st, 1898.—“Inclosed find check for \$140.38 to balance account. All varieties came out of the boxes in fine condition and are very satisfactory. Shall be glad to give you my patronage next year”.

IOWA, April 8th, 1898.—“Inclosed find check to balance account. Trees were fine and came in good condition”.

IOWA, May 25th, 1898.—“Inclosed herein we hand you our check No. 14,807 for \$708.50 in payment of Bill of Nursery Stock shipped by your Company this Spring. We take this occasion to thank you for the excellent stock sent us which was received in fine condition and satisfactory in every respect”.

Some of the Newer Varieties.

Of the new sorts introduced in the past few years, we think the following take first rank, and can supply all in commercial quantities:

Tull Apple—Probably the best winter apple for the Southern and South-western states—"The Baldwin of the South": Not as good quality as Baldwin, but a fine, large, handsome apple that stands the hot dry summer well, and ripens in the cool days of October making it a great keeper. Origin, Southern Arkansas.

Capt. Ede Peach—A very large, beautiful, yellow free-stone, slightly shaded with a delicate carmine on one side—one of the handsomest peaches grown. In season it is about one week earlier than Elberta; of Southern Illinois Origin, very hardy in bud and bloom and better quality than Elberta, a seedling of Chinese Cling.

Triumph Peach—The "**Early Yellow Fleshed Free-stone**", of Georgia Origin. Good appearance and flavor, **ripens with Alexander**, a running mate for Sneed. Heavily planted by Southern growers especially, last year.

Sneed Peach—The earliest Peach we grow, of Tennessee Origin, a seedling of Chinese Cling. It has been extensively planted by the fruit growers throughout the Western and Southern states the past three years, fruited very profitably by Tennessee growers for the past eight years. A clingstone, fine shipper and ten days earlier than Alexander. Tree not a symmetrical grower.

Wickson Plum—This is the plum of which its introducer, LUTHER BURBANK, said:—"Among the many thousand Japanese plums which I have fruited, this one stands pre-eminent in its rare combination of good qualities". Tree a beautiful grower; fruit large, color when fully matured a beautiful carmine. Probably the best keeper of all the Jap's.

Other newer sorts of which our stock is large are Matthews' Beauty, Champion, Crosby and Greensboro Peaches; Red June Plum; Lincoln Coreless, Koonce Pears, etc.

We know how annoying it is to want a small bill including many items, and to be obliged to divide it among three or four growers in different parts of the country. Our stock this Fall will include,—

Grape Vines,

Gooseberries,

Currants,

Blackberries,

Raspberries,

Asparagus,

Rhubarb,

Japan Persimmon,

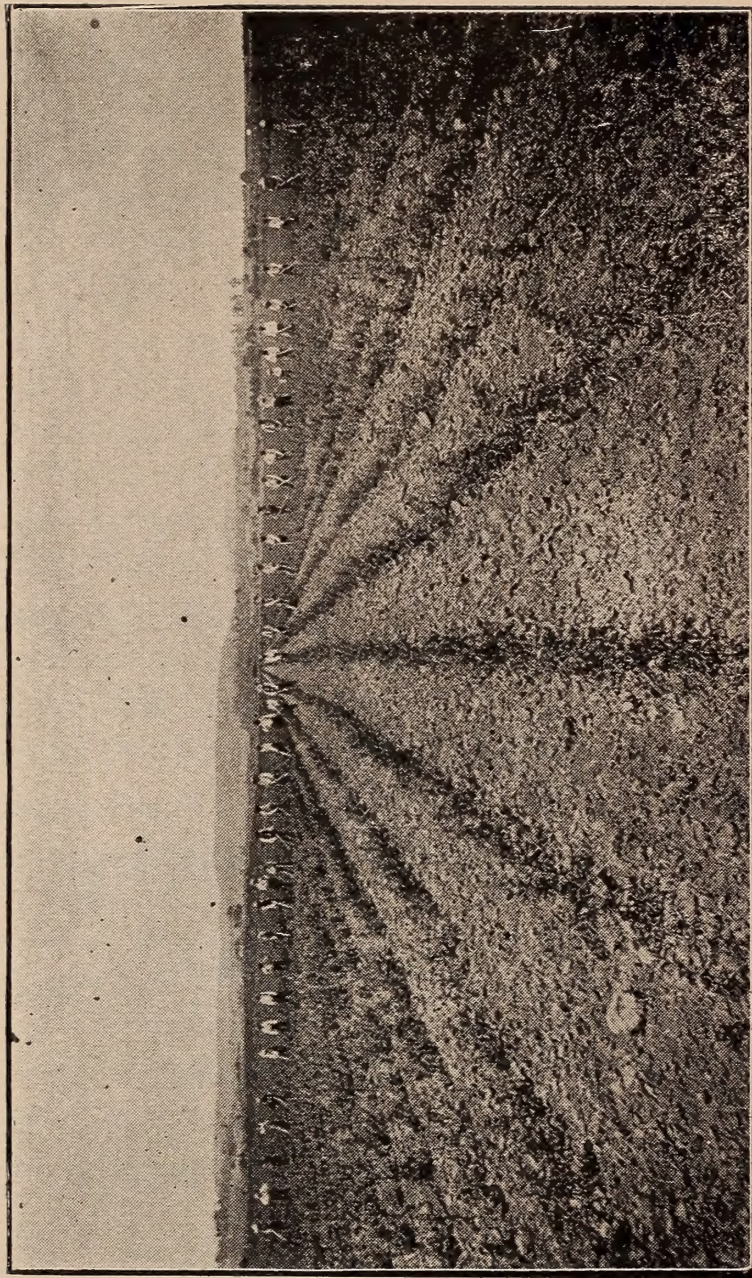

Evergreens,

Clematis,

Strawberry

Plants,

All will be quoted in our Priced List which will be mailed you later. **Our Stock will be Complete, we can fill your entire list.** Remember this when the “**rush**” comes.
